Experience

Chocolatier

at Amelia Island Peterbrooke Chocolatier

June 2016 - PRESENT

In-house chocolatier and customer service associate.

Contract Illustrator/Graphic Designer

March 2018 - PRESENT

Illustrator/Graphic Designer for hire on a commission basis. My primary markets are custom digital illustrations for private individuals and branding for small local businesses.

General Manager

at DeNucci's, Amelia Island

January 2020 to January 2022

Overseer of staff, inventory, and day-to-day operations. General upkeep of websites and social media. Graphic designer for menus and advertising campaigns.

Assistant Instructor, Private Tutor, Artist in Residence

at the Art League of Jacksonville

December 2016 to March 2018

My primary responsibility was to ensure that students would pass portfolio review for Douglas Anderson High School. I had a 100% pass rate with my students.

Education

Studio Arts B.A.

from the University of Central Florida

August 2016 - December 2019

Studio Arts major with a concentration in Illustration and Sculpture. Summa cum laude (3.8 GPA).

Full Stack Web Developer Certification from the University of Central Florida

June - November 2022

Currently attending.

Fernandina Beach High School class of 2016

Graduate with Honors.

.....

Skills

Adobe Products

I have extensive knowledge of Adobe Photoshop, having held a certification in the past, and beginner knowledge of Illustrator and InDesign. I can pick up other products quickly due to my experience with the original Photoshop.

Microsoft Office

Having access to these products my whole life, using them is second nature. I am most adept with Word and PowerPoint.

Web Design and Development

In November I will have completed the UCF Full Stack Web Development Bootcamp. I will have knowledge of and experience in HTML5, CSS3, ES6, APIs, Node.js, Express.js, SQL, and React.

Graphic Design and Digital Illustration

Even though my official art degree is traditional, I took many digital art classes and have multitudes of experience outside of educational settings as well. Aside from my experience with Photoshop, I have extensive knowledge of PaintToolSAI, and working knowledge of Clip Studio Paint.

Tech Maintenance

I've had computers my whole life, and with that comes computer problems. I've had success fixing most basic computer issues myself, as well as fixing and optimizing computers for other people.

Project and Business Management

I have experience leading a team of artists, a team of restaurant employees, and now a team of web developers. Teamwork and guidance come naturally to me.
