

VICTORIA DAVID

ILLUSTRATOR, GRAPHIC DESIGNER, FULL STACK DEVELOPER

NICE TO MEET YOU!

I started as a classically trained artist, then took it digital with graphic design, and now I'm a full stack developer. When I first started doodling on my homework in grade school, I never thought I'd end up coding my own portfolio. You never know where life will take you!

I have a passion for crisp lines, tiny sculptures, clean code, and native wildlife. In addition to the color pink, I draw influence from a family history in Computer Science, growing up with Disney and Studio Ghibli, and my love for nature.
